

Student Session

The 13th International Symposium on Autonomous Decentralized Systems (ISADS)

March 22 - 24, 2017

Bangkok, Thailand

<http://ieeethailand.org/isads2017.php>

Call for Papers in Student Section

The goal of the student paper section is to encourage students to attend ISADS and present their ongoing work, exchange ideas with researchers and practitioners, and receive early feedback on their research work. The first author of the paper must be a registered student.

We invite original papers reporting research and practical results related to, but not limited to, any areas listed in ISADS call for papers. Student papers are short technical articles that promote early communication of technical work and allow students to report on work in progress and introduce new ideas to the community. Student papers should not exceed 6 pages of IEEE conference format. Submissions must be unpublished work.

Authors must submit their manuscripts electronically following the instructions at the ISADS 2017 web site at:

<http://www.ieeethailand.org/isads2017.php>

or directly to

<https://easychair.org/conferences/?conf=isads2017>

Please indicate in the student author when submitting.

Student papers will be reviewed by ISADS PC members. The selection will be based on the following criteria:

- Originality
- Technical soundness
- Quality and clarity of the written presentation.

Students with accepted papers are expected to attend the conference and present their papers. **The financial support is available for student authors to attend the conference. The Best Student Paper Award will be given to work of outstanding quality presented at the conference.**

All papers of student session will be printed in the ISADS Proceedings and will appear in IEEE Xplore digital library.

The deadline for submitting paper is **December 15, 2016**. The deadline is firm, and no extension is possible.
